

To Whom It May Concern:

I am writing concerning K-LOVE radio. K-LOVE is a part of each day of my life. I listen to it in the morning, on the way to work, at work, and driving home from work. The radio station provides encouraging music through-out the day and has become a source for spiritual renewal and inspiration.

If K-LOVE were displaced by an LPFM broadcaster providing other programming, the community would be without a radio community that links each individual community together throughout the nation. It is neat to know you are listening to the same song as someone in California or Indiana. It also is used to bring people together in the local community through sponsored events and free advertising for charitable events.

The service provided by K-LOVE is in the public interest because it provides a service that is lacking in this nation today--positive, encouraging music and music that the whole family can listen to together. With so much sex, violence and hatred in the world, it is refreshing to turn the radio on and hear about encouraging things happening in the community, nation and world. K-LOVE provides what there should be more of today--a positive look at life, and I feel it would be a tremendous disservice to my community to displace it by an LPFM broadcaster.

Thank you for your consideration.

Sincerely,

Wendy McMahon
